

# Co-Ral Plus®

Insecticide Cattle Ear Tag

**For Use On Beef And Non-Lactating Dairy Cattle To Control Horn Flies (Including Pyrethroid-Resistant Horn Flies), Gulf Coast Ticks, Spinose Ear Ticks, And As An Aid To Control Face Flies.**

- Industry's first 40% organophosphate liquid-dust ear tag.
- Combines 20% liquid (diazinon) and 20% dust (coumaphos) active ingredients through exclusive patent-pending process.
- During six-month testing, released 12% more active ingredients than a leading 40% diazinon ear tag.\*
- Compared to diazinon tags, which stopped releasing by Day 135, Co-Ral Plus® tags were still actively releasing three weeks later.\*
- Shipped in a specially designed box that keeps the tags separated and is protected by a stand-up foil bag.
- Utilizes the Allflex® Universal Total Tagger.

# Product Information

Co-Ral Plus® Insecticide Cattle Ear Tag is a 40% organophosphate ear tag that contains 20% dry (coumaphos) and 20% liquid (diazinon) active ingredients. A unique patent-pending process, which combines the liquid-dust ingredients with a plasticizer for optimal construction, allows the tag to release longer and more thoroughly than other diazinon tags for effective season-long fly control.

The tag, which is bright white for easy field visibility, features a reinforcement insert and utilizes the popular Allflex® Universal Total Tagger. (NOTE: Be sure to read and follow instructions on tagging tool.) Packaged 20 tags per box (240 per case).

## CO-RAL PLUS®

### Insecticide Cattle Ear Tag

For use with Allflex® Global Applicator with red pin and black clip.

For Use On Beef And Non-Lactating Dairy Cattle To Control Horn Flies (Including Pyrethroid-Resistant Horn Flies), Gulf Coast Ticks, Spinose Ear Ticks, And As An Aid To Control Face Flies.

Active Ingredients:	Percent By Weight
Coumaphos O, O – diethyl O- (3-chloro-4-methyl-2-oxo-2H-1 benzopyran-7-yl) phosphorothioate .....	20%
Diazinon O, O – diethyl-O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate .....	20%
Other Ingredients .....	60%
Total .....	100%

Keep Out of Reach of Children

#### CAUTION

See Additional Precautionary Statements and Full Labeling

#### PRECAUTIONARY STATEMENTS

##### HAZARDS TO HUMANS AND DOMESTIC ANIMALS

#### CAUTION

May be fatal if chewed or swallowed. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wear nonpermeable protective gloves when applying or removing tags.

**User Safety Recommendation:** Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

#### FIRST AID

**If swallowed:** Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless instructed to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious or convulsing person.

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call poison control center or doctor for treatment advice.

**If in eyes:** Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**Note to Physician:** This product contains cholinesterase inhibitors. If symptoms of cholinesterase inhibition are present, atropine sulfate, by injection, is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

**Environmental Hazards:** This pesticide is toxic to birds, fish and wildlife. Do not apply directly to water. Do not contaminate water when disposing of used tags.

#### Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. This labeling must be in the possession of the user at the time of pesticide application. Reformulation or repackaging of this product is prohibited.

For the control of Horn Flies (including pyrethroid-resistant Horn Flies), Gulf Coast Ticks and Spinose Ear Ticks on beef and non-lactating dairy cattle and as an aid to control Face Flies.

All mature animals in the herd should be tagged. For adequate control of Horn Flies attach one tag per animal. For optimum control of Horn Flies, Gulf Coast Ticks, and Spinose Ear Ticks, and as an aid in the control of Face Flies, attach one tag to

each ear (two per animal). Replace as necessary. Co-Ral Plus® Insecticide Cattle Ear Tags have been proven to be effective against Horn Flies for three to five months. Use Allflex® Global Applicator with the red pin and black clip to apply tags to cattle.

Apply as indicated (Figures 1-4). Calves less than 3 months of age should not be tagged as ear damage may result. Remove tags at end of fly season or prior to slaughter.

Figure 1  
Disinfect pliers prior to use. Place male button onto pin until it projects through the tip.

Figure 2  
Slide tag under the clip of the pliers by depressing the lever.

Figure 3  
Position tag in the center portion of the front side of the ear.

Figure 4  
Apply the tag between the second and third rib cartilage.

Continual exposure of Horn Flies to a single class of insecticide (e.g. pyrethroids or organophosphates) may lead to the development of resistance to that class of insecticide. In order to reduce the possibility of Horn Flies developing resistance it is important to rotate the class of insecticide used and/or the method of Horn Fly control on a seasonal basis. Co-Ral Plus Insecticide Cattle Ear Tags contain the organophosphate insecticides coumaphos and diazinon.

#### Storage and Disposal:

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in cool place in original container.

**Pesticide Disposal:** Waste (spent tags) resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Dispose of empty pouch in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned stay out of smoke.
